**845 Sodom Road, Westport, MA 02790**

### **2021 Venue Rental Information**

Weatherlow Farms, founded in 2014, is located in the seaside town of Westport, MA. We raise the highest quality grass-fed beef, lamb, chevon, pork, and pastured poultry. We grow a curated selection of flowers and foliage for weddings and special events and only use what we grow and forage for our design work. All are cared for employing environmentally sustainable and socially responsible practices which focus on the special relationship between land, animal and food. While first and foremost a working farm, we do, on occasion, open our doors for farm-related events. It is our hope that by sharing our special location with you, that you will share in our mission and vision.

So that the farm is never developed, the land is under a conservation easement also known as an Agricultural Preservation Restriction (APR). As a condition of this agreement, all proteins, florals and floral design services need to be sourced from the farm. Any of our preferred caterers can provide a bespoke menu utilizing our farm raised proteins. The minimum required cost of florals and floral design services is included in the non-wedding event pricing below. Wedding florals start at \$3,000.
